

Getting a Library Card

To obtain a borrower's card from the Fulton Public Library you must live, work, study, own property or pay tax in the State of New York and have verifiable proof of same. Children under the age of 13 can obtain a card with parental consent as soon as they can legibly write their first and last name. There is a small fee for the replacement of lost cards, the late return of materials, the use of photo-copy, printer and fax machines and to purchase items from our on-going lobby book sale; otherwise, all programs and services are provided free of charge.
